

Getting started with OXERVATE®

oxervate® 
(cenegermin-bkbj ophthalmic
solution) 0.002% (20 mcg/mL)

Now that your doctor has prescribed OXERVATE®, we are dedicated to helping you move forward with confidence throughout the prescription process and during your treatment.

The simple, 5-step prescription process

With OXERVATE, you don't have to go to a pharmacy to pick it up. Instead, it will be shipped directly to your home or preferred address on a regular basis during the course of your treatment.

Starting the process

Step
1

To begin the process, you simply sign the OXERVATE prescription enrollment form at your doctor's office.

Once insurance coverage has been determined, you can expect a **welcome call from Dompé CONNECT to Care within 24 hours after they receive the enrollment form from your doctor.** Please have your insurance prescription card handy during the call.

*See the next page
for steps 2–5.*

 Dompé | **CONNECT to Care**

Remember, you can call Dompé CONNECT to Care anytime during the process if you have any questions: 1-877-422-4412, M-F between 8 AM and 8 PM ET.

Step 2

Patient financial assistance

Dompé CONNECT to Care will call you to discuss options for financial assistance to help with out-of-pocket costs as needed, including an OXERVATE® co-pay program. Please add this phone number to your contacts so you don't miss this important call: 1-877-422-4412.

Step 3

Shipment coordination

Once approved for financial assistance, you will be contacted by Accredo Health Group Inc., a specialty pharmacy, to coordinate your biweekly shipments of OXERVATE (cenegermin-bkjb) to your home or preferred shipping address. You must speak with the Accredo representative before shipments can begin. Make sure to add this number as well to your contacts so you don't miss the call: 1-888-454-8860.

Step 4

OXERVATE delivery

Congratulations!

You've received your first shipment and are ready to start using OXERVATE—but there are a couple of things to know first, as described in Step 5.

Step 5

Before you begin

OXERVATE is delivered to you in an insulated pack with dry ice. Use caution when opening. The OXERVATE weekly carton(s) must be removed from the insulated container and refrigerated within 5 hours of delivery. For further instructions on using and storing OXERVATE, please refer to your OXERVATE Patient Brochure and watch the video on the OXERVATE website at [OXERVATE.com/taking-oxervate](https://www.oxervate.com/taking-oxervate).
